

HAWAIIAN SHAVED ICE - pricing details

All prices are exclusive of vat

The Hawaiian shaved ice machine is powered from a 12volt battery.
This means that the Hawaiian shaved ice bar can to be placed anywhere
with out the need of electricity.

The machine makes the drinks from ice which we carry with us in either in igloo boxes
or in the cool box on the front of the trike.

Shaved ice is made in an instant and is funnelled directly into a cup and then the
flavour(s) are poured over the tops to make a coloured, attractive and refreshing drink.

As well as flavours we can add fresh fruit to enhance the visual and taste experience.

Each drink takes about 30 seconds to make on average, depending on choice(s).

The minimum area required is 2.0m x 1.3m
Ideal area is 2m x 1.5m or from within our mini marquee.

Promotional area: Front of the Hawaiian (rattan) bar 1500mm x 800mm (maximum).

On the trike Promotion use is best on the front insulated serving box.
Sides of box: 820mm x 550mm. Under the hinges 820mm x 470mm.
Hinge size 5mm x 18mm. Position of hinges From left side 170mm & right side 180mm.
