

A GUIDE TO TRANSPORT CHARGES

This is a guide to the charges when we or a sub-contractor deliver the equipment to the given venue postcode.

Please note we only unload to a distance of 30 metres from the van on level ground. If steps, lift, gravel, uneven or sloping ground are to be encountered, then we need to be informed! This is required in case we need to send an additional person to help the driver to be away on time.

Transport charges are worked out by Postcode, which we ask you to provide. The charge shown is for the delivery and applies again for the collection. It covers a single item to a van load, if the van load is exceeded then a revised charge will be based on whether it is best to use a second van or the best size of vehicle to carry the load (Luton, 7.5 ton).

We charge £39.00 per hour to transport equipment by van, (like a taxi hourly rate) it's estimated on how long we expect to do the round journey, we do not charge any extra if we get stuck for hours in a traffic jam! The time it takes in perfect conditions! is sometimes extended due to time of expected delivery; general traffic, traffic lights, road works, diversions and of course the motorway delays.

There is the option of the driver / operative to stay, serve, supervise or help-out for the duration of your event, this can be exchanged for the time it takes for collection journey provided the attendance time does not excessively exceed the original time taken for the collection journey.

Some of the equipment already has the element of transport cost, built into the price, i.e. Casino tables, simulators.

LOCAL AREAS - The local delivery charges is £30.00. (For the single return Journey) and the charge applies again for the collection. Ascot, Burnham, Eaton wick, Egham, Englefield Green, Gerrards Cross, Farnham Royal, Holyport, Iver, Langley, Maidenhead, Poyle, Richings Park, Slough, Staines, Taplow, Windsor, Winkfield, Virginia Water, Wraysbury.

**All prices shown below applies for just the delivery
it will apply again for the collection.**
